Great job hunt solutions for your staff

Enabling your people to “Stand out” from the crowd

If you are looking to support staff with a move out of your employment you will want them to have the best possible chance of succeeding in a highly competitive labour market.

“Successful CV quickly understood my employment development needs and produced an excellent career marketing CV that is already helping me win job interviews.

A professionally written CV and cover letter is proving to be a very worthwhile investment. Overall, a very positive experience.”

J.K. Senior Manager,
Financial Services

“Simon provided a programme of coaching support at a time I was looking to develop in my role and explore career options for the future. He has helped me to clarify my direction offering suggestions and learning that were insightful, pragmatic and practical, thank you.”

Janet Doyle, Office Manager

“As soon as I began to send out the new CV I noticed far more positive and encouraging responses to my job applications, and within a short time I landed a new position, as National Distribution Manager for a large chemical manufacturer. So, if I need my CV updated or re-written in the future, I know where I'll be going!!”

Paul Petoud
